ADMINISTRATIVE INSTRUCTIONS

TREATMENT REQUIREMENTS REMOVED AS A CONDITION  
FOR INTERSTATE SHIPMENT OF BALED LINT AND  
LINTERS, AND PRODUCTS THEREOF PRODUCED OR  
MANUFACTURED FROM STERILIZED COTTONSEED, FROM  
THE PINK BOLLWORM REGULATED AREA IN FLORIDA

(Issued under Regulations 8, 9, 10, and 11  
of Quarantine No. 52--Domestic)

In accordance with the authorizations contained in Regulations 8, 9, 10, and 11 of Quarantine No. 52 (Domestic), on account of the pink bollworm, notice is hereby given that baled cotton lint, baled cotton linters, and products thereof produced or manufactured from sterilized cottonseed may be moved interstate from the regulated area in Florida without restriction, other than that a permit issued by the United States Department of Agriculture must be secured and attached to the articles or shipping papers in accordance with the methods prescribed in Regulation 15 of said quarantine.

The removal of treatment requirements for the above-mentioned products is considered safe due to the fact that no pink bollworm infestation has been found in the regulated area of Florida during the 1935 season.

LEE A. STRONG

Chief, Bureau of Entomology and Plant Quarantine.
